

Windows & Doors

STANDARD WINDOWS

Second floor

First floor

SPECIAL WINDOWS

Standard Windows

Windows are typically vertical in proportion. Window panes are square or vertical in proportion with muntin patterns of 6 over 6 or 8 over 8. Standard windows are double-hung.

Special Windows

Special windows include a picture window flanked by narrow double-hungs windows and a wide gabled dormer. Small rectangular windows are often used as an accent in gable ends.

Shutters

Louvered shutters are encouraged. If shutters are installed, they should be sized to match the window sash and mounted with hardware to appear operable.

Doors

Doors are typically 2-, 6- or 8-paneled and often include a glass light at the top. Round-top doors are sometimes used in front-gabled wings.

Trim

Windows and doors typically have 4-inch-wide trim, either flat or with a backband. Colonial Revival door surrounds, with pilasters and a flat entablature, are sometimes used at the front door.
